مركز مسقط لعلاح العيون بالليزر Muscat Eye Laser Center HAPPY EYES

1st March 2010

Mr. Vasileios Papazoglu Special Secretary of Higher Education Ministry of Education Lifelong Learning and Religious Affairs

Dear Mr. Papazoglu

It gives me immense pleasure to introduce my good friend and colleague Dr Ionnis Pallikaris who is an internationally acclaimed personality in the field of ophthalmology.

His commendable work through the VEIC (Vardinoyannion Eye Institute of Crete) towards developing innovative ideas, organizing educational trainings and being a powerful link in facilitating effective communication with the global ophthalmology community is undoubtedly praiseworthy.

Dr lonnis and VEIC have been instrumental in putting Greece on the global ophthalmology community map and contributing to the Greece economy through their scientific activities and programs.

As a fellow refractive surgeon and a well wisher of the amazing work of Dr Ionnis Pallikaris and his team, I feel obliged to promote their efforts through the above words of appreciation.

Kind regards

Maria Clara Arbelaez, MD Medical Director Muscat Eye Laser Center
